DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/24/07 has been entered.

Claim Rejections - 35 USC § 112

2. Claims 1-4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The disclosure, as originally filed, failed to provide support for forming a land (claim 1, line 6) before adjusting a thickness of the plating layer and forming areas of the metal foils not cover covered by the plating layer into lines steps. The forming the land step occurs after adjusting a thickness of the plating layer and forming areas of the metal foils steps as shown in Fig. 10. The disclosure, as originally filed, failed to provide support for performing claims 3-4 after forming areas of the metal foils not cover covered by the plating layer into lines steps.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3726

4. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: forming an opening in the metal foils and the insulating substrate, forming a first resist pattern on the metal foils, removing the first resist pattern, forming a second resist pattern, etc.

Claim 5, line 6: "said metal foil" lacks positive antecedent basis.

Claim 5, lines 7-8: "the exposed metal foil" lacks positive antecedent basis.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: removing the first resist pattern; forming a second resist pattern on the areas of the metal foil; selectively forming an exposed portion of the areas of the metal foil using the second resist pattern; etching the metal foil at the exposed portion; removing the second resist pattern; forming a dielectric layer on the insulating substrate and on the plating layer and the lines on the metal foil; forming an opening in the plating layer; and performing plating on the opening.

Claims 1-13 are ambiguous as being incomplete for omitting essential steps and competitors would be unable to discern the bounds of the invention.

Conclusion

Art Unit: 3726

5. Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional).

Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.
